Self Motivation

EDUCATION

Bachelor of Science in Information Technology

Aurora State College of Technology

Best in Application Programmer

PROFESSIONAL EXPERIENCE

Freelance Developer

July 2022 - Present

As a freelance developer, I specialize in designing unique software solutions for customers from a variety of sectors. I work directly with customers to understand their objectives, design and create apps, and provide continuous support and maintenance. I have worked with a variety of technologies and programming languages, allowing me to provide high-quality, bespoke solutions that match each client's specific needs.

Accomplishments:

- Develops H.E.L.P: Handheld Emergency Locator for Protection, which took 2nd place in the 2023 Colloquium at Aurora State College of Technology.
